Features of the Series(Latest series by Hp introduced in June '09)

Stylish Business Notebook	The New Business Style . Sleek design , glossy finish and feature rich .
Chiclet Keyboard	The innovative layout provides a visually open and spacious keyboard. The keys are raised from the surface leaving less places for dirt and dust to hide, making it easy to clean and more maintenance free than ever before.
Color	Glossy Noir (black) finish allow professionals to personalize their business notebooks and stand out from the crowd.
Wide screen LED back lit display with 16:9 aspect ratio	LED-backlit HD display provides improved brightness, contrast and clarity from notebook's screen providing a more vivid image and the 16:9 aspect ratio is similar to many HDTVs. Also, LED-backlit displays power than regular LCD screens.
High performance UMA / discrete Graphics	Choice of high performance discrete or UMA graphics .
High Definition	Experience life in high-definition. Connect directly to high-resolution displays through HDMI cable to view high definition content. This one cable replaces up to eight audio and five video cables. Probook can also playback HD video with optional Blu-ray ROM DVD+/-RW SuperMulti DL Drive (discrete graphics required).
Synchronize Data through card reader slot	Quickly synchronize and store the data with different types of devices or other users. Whether the user is managing work files, pictures or music, the integrated Media Card Reader incorporates the following popular media card formats: Secure Digital, MMC, Memory Stick, Memory Stick Pro, xD, and Memory Stick Duo.
Uncomparable HP Professional Innovations	HP's focused innovations help the user mitigate risk, increase productivity and improve overall mobile computing experience so that the user can concentrate on business and go places.

HP Probook Series - HP Professional Innovations

Security - Built to Protect		Ease of use - Built to Simplify		Reliability - Built to Last	
HP helps give you the peace of mind that comes with knowing your information has enhanced protection by offering a broad range of multi-layered, customizable security solutions such as HP ProtectTools to help defend your data, your applications and your network.		HP Business Notebook PCs are designed to help boost user productivity while maximizing comfort and simplicity.		With innovative engineering and HP Total Test Process (TTP) (a multi-tiered product validation process with comprehensive, end-to-end diagnostics and more than 95,000 hours of testing per platform), user gets a reliable and durable notebook that can go the distance.	
Full Drive Encryption	Encodes information on a hard drive volume so that it becomes unreadable to an unauthorized person. This feature helps ensure that sensitive information cannot be accessed if the notebook or hard drive is lost or stolen.	HP Quicklook2	QuickLook 2 provides read capability of email, calendar, task and contact information in seconds at the touch of a button from off without having to wait for the system to boot up.	HP 3D Drive Guard	Protects notebook's hard drive against impact, bumps, or drops so the critical information in HDD is easily protected while the user is on the move. HP 3D DriveGuard's three-axis digital accelerometer acts as a motion sensor which notifies the system software of any sudden movement and sends a command to temporarily park the
File, Disk Sanitizer	This permanently deletes individual files, folders and personally identifiable information from the notebook . <u>HP Disk Sanitizer</u> permanently destroys data on the hard drive.	2 MP Webcam	Experience video, still-image capture, web conferencing, or video-enhanced instant messaging with the optional <u>integrated 2 MP webcam</u> .	Spill Resistant Keyboard	Help protect sensitive electronics and key components from minor spills that might otherwise cause system failure with the <u>spill-resistant keyboard</u> .
HP SpareKey	No more worries of being locked out of notebook in case of a forgotten password. <u>HP SpareKey</u> allows the user to answer	HP Softpaq Download Manager	<u>HP SoftPaq Download Manager</u> can significantly reduce the amount of time it takes to locate and download updates. SoftPaqs can be downloaded in as few as three easy steps from a single user interface after initial setup.	Environmental responsibility	HP Business Notebook PCs are designed to reduce their impact on the environment by eliminating or reducing substances of concern, using fewer resources, reducing energy consumption, and designing for recyclability. The new LCDs with white, light-emitting diodes (LEDs) backlighting are mercury free.
